PROFESSIONAL SUMMARY

Full Stack & Flutter Developer with 7+ years of experience building internal web and mobile applications for warehouse and inventory systems. Strong expertise in developing responsive UIs, integrating RESTful APIs, and handling both front-end and back-end development. Experienced in basic server monitoring, Git-based version control, and project coordination to deliver reliable systems that support operational efficiency and business processes.

SKILLS

Programming Languages: Dart, C, Java, HTML, TypeScript
Web Development: PHP, Laravel, JavaScript, TypeScript, Vue, React, CSS
Mobile Development: Flutter (GetX, Provider, BLoC)
Testing & Automation: Selenium, Playwright, Cucumber, Power Automate, Manual Testing
Design & Visualization: Figma, Canva, Corel Draw
Project Management: Git, Sourcetree, Trello, Notion, Whimsical, Scrum
Operating System: Mostly Windows

WORK EXPERIENCE

- PT. Kencana Maju Bersama (Viva)** — Surabaya, Indonesia
Full Stack Developer

Oct 2025 – Present
10 Months

 - Built an end-to-end warehouse ERP system (web + mobile) for 30+ business entities, covering multi-warehouse operations, master data, and inventory tracking.
 - Developed the web application with a Laravel backend and Vue.js frontend, and designed the MySQL database schema for multi-warehouse stock movements.
 - Built a Flutter mobile app for stock-taking with QR code scanning, connected to a REST API as the single source of truth for inventory logic and data synchronization.
 - Set up server monitoring and ongoing maintenance to keep the system available and healthy.
- PT. Kencana Maju Bersama (Tobang)** — Surabaya, Indonesia
Project Manager · Full Time Hybrid

Oct 2024 – Oct 2025
1 Year

 - Directed mobile app, website, and system projects from planning through deployment.
 - Assigned tasks to developers and managed product backlogs.
 - Monitored server performance and reviewed logs to prevent issues.
 - Coordinated app and website releases to ensure smooth updates.
 - Led team meetings and tracked project progress.
- PT Dinergi Dimensi Informatika** — Sidoarjo, Indonesia
IT Developer · Part Time Remote

Sep 2024 – Jun 2026
1 Year 9 Months

 - Implemented state management in React with TypeScript and Redux for efficient data handling and UI updates.
 - Automated tasks and workflows using Power Automate, Selenium, and Playwright to increase efficiency and reduce manual work.
 - Handled user guide documentation and conducted UAT to ensure apps met user requirements and expectations.
- KoffieSoft (PT. Dapur Perangkat Lunak Indonesia)** — Surabaya, Indonesia
Mobile Developer & UI/UX Designer · Full Time Hybrid

Oct 2023 – Oct 2024
1 Year

 - Built and optimized mobile apps with REST API integration and responsive UIs.
 - Used GetX, Provider, and BLoC for efficient state management.
 - Handled app redeployment to the Play Store and ensured compliance.
 - Led project planning, team coordination, and performance improvements.

Tempo360 — Jakarta, Indonesia
UI/UX & Design Lead (Project Base) · Remote

May 2023 – Feb 2025
1 Year 10 Months

- Led design projects from concept to delivery, ensuring deadlines and quality standards were met.
- Conducted usability testing and incorporated user feedback into designs; presented design solutions to stakeholders and ensured alignment with brand guidelines.
- Managed various Komatsu projects, including brochure and PowerPoint design, SEMrush keyword research, catalog research, and website redesign (komatsu.co.id).

Trust Medis — Surabaya, Indonesia
Flutter Developer · Full Time Remote

Jun 2023 – Dec 2023
7 Months

- Developed several apps, including enhancing an existing app using a Flutter boilerplate and GetX for state management.
- Resolved issues in production apps, including a POS application, and contributed to UI development and API integrations for other apps.

Burningroom Technology — Surabaya, Indonesia
Flutter Developer · Full Time Hybrid

Jan 2023 – Apr 2023
4 Months

- Developed a doctor booking application from scratch, including app structure management, UI design, API integration, and state management, preparing it for production.
- Oversaw the entire development process, ensuring seamless functionality and a user-friendly interface.

PENS Vestifal — Surabaya, Indonesia
Mentor Mobile Flutter · Part Time Hybrid

Sep 2022 – Dec 2022
4 Months

- Mentored 8 teams in developing mobile apps, guiding them through problem solving and app development best practices.
- Conducted weekly offline and online meetings to ensure teams made sound decisions and met project goals effectively.

NF Computer — Surabaya, Indonesia
Flutter Developer · MSIB Study Independent · Remote

Jul 2022 – Dec 2022
6 Months

- Learned Flutter from scratch and developed an e-commerce application, handling UI creation, API integration, and deployment to the Play Store.
- Gained hands-on experience across the complete app development lifecycle.

EDUCATION

Surabaya State Electronics Polytechnic (PENS) — Surabaya, Indonesia
Bachelor of Applied Science (D4), Informatics Engineering — GPA 3.71 / 4.00

May 2019 – Oct 2023

SMAN 11 Surabaya — Surabaya, Indonesia
Senior High School — Science Major

Jul 2016 – Jul 2019

ORGANISATIONAL EXPERIENCE

Djarum Foundation — Surabaya, Indonesia
Scholarship Grantee (Djarum Beasiswa Plus)

Aug 2021 – Aug 2022

- Focused on youth leadership development through workshops, mentorship, and community involvement; strengthened teamwork, communication, and strategic thinking.

Himpunan Mahasiswa Teknik Informatika PENS — Surabaya, Indonesia
Head of Ministry of Foreign Affairs

Mar 2021 – Jan 2022

- Managed a team and organized work programs for organizational visits, souvenir programs for seniors, and knowledge-sharing sessions with other communities.

Himpunan Mahasiswa Teknik Informatika PENS — Surabaya, Indonesia
Junior Staff of Ministry of Foreign Affairs

Feb 2020 – Dec 2020

- Served as chairman of the Student Organization Visit program.

ACHIEVEMENTS & CERTIFICATIONS

- **Multi-Platform Development – Expert Level (2025):** Completed expert-level certification and built a production-ready Flutter application with responsive UI, clean architecture, state management, and RESTful API integration across Android, iOS, and web.

- **Growth-Driven Design Certified (2025):** Certified in applying the Growth-Driven Design framework to build and optimize high-performing, data-driven websites.
- **Data Visualization Fundamentals (2025):** Completed foundational training in presenting data through clear charts, graphs, and dashboards to support data-driven decision-making.
- **Best Soft Skills – PENS FEST (2021):** Awarded for an Android mobile application built with Flutter and a RESTful API using the Scrum methodology.

KEY PROJECTS

Fasindo · [Flutter](#), [BLoC](#), [REST API](#), [flutter_map](#)

Super app for the property sector with house-model booking, an interactive site map, and multiple business approval systems.
